## Touch Fairy Vortexer SFV-28 Series

SFV-28

SFV-28+

SFV-28S

## Introduction

Touch Fairy Vortexer focuses on touch-to-mix (short mix) for a variety of tubes / centrifugal tubes. Its compact design makes it very attractive and welcome, while its touch-to-mix operation makes it very easy handling and quite convenient. Touch fairy vortexer becomes an essential experimental instrument with its prominent mixing effect.

## Features

- The max diameter of the tubes is up to 30mm. Suit for mixing tubes /centrifugal tubes with prominent mixing effect.
- Outer shell and test tube base are made of plastic which is resistant to chemical attack. The thick base makes operation very steady and reliable.
- 12V low voltage power adapter built in, smart and portable

## Specification

Item	SFV-28	SFV-28+	SFV-28S
Speed Range	4000rpm	0~4000rpm	4000rpm
Switch mode	Jog switch	Jog switch+Knob adjust	Jog switch / One button long open
Shaking Orbit	4.5mm (circle)	4.5mm (circle)	4.5mm (circle))
Max. Sample Capacity	50ml	50ml	50ml
Power Input /Output	1.2W / 0.8W	1.2W / 0.8W	1.2W / 0.8W
Voltage	DC12V 1A	DC12V 1A	DC12V 1A
Power	12W	12W	12W
Dimension	W.110 x D.110 x H.86mm	W.110 x D.110 x H.86mm	W.110 x D.110 x H.86mm
Net Weight	1.1kgs	1.1kgs	1.1kgs
