## Micro-plate Centrifuge SMC-25

## Introduction

Micro-plate Centrifuge SMC-25 is specially designed for the 96-hole micro plates. It can quickly spin down droplets and condensation.

## Features

- Wide applicable range. It suits for skirted, semi-skirted, non-skirted and all standard PCR plates.
- Strong centrifugal power. Accelerate to 2500rpm quickly. From top speed to stop cost around 10 seconds.
- Humanized design. Two modes - press to operate or timer control - make the experiments more convenient and efficient.
- Smart size, simple operation. The cover can be fully opened to 95°, convenient to put and fetch the plates.
- Quick spin down droplets and condensation. Used before and after thermal cycling to improve PCR yield.

## Specification

Item	SMC-25
Speed Range	2800rpm
RCF	627g
Sample Capacity	2PCR plates
Rotor	Fixed vertically
Time Range	1s ~99s or touch operation
Voltage	DC 24V Power adapter ( AC 100V~230V,50/60Hz )
Power	40W
Dimension	W.190 x D. 219 x H.186mm
Net Weight	2.7kgs
